NotTodo App: Remember What Not to Do!

In a world filled with endless tasks and obligations, the NotTodo app introduces a refreshing perspective by helping users remember what not to do. Our project aims to alleviate the stress and clutter of traditional to-do lists by allowing users to create and manage a list of activities they wish to avoid. With features such as user management, context-specific Not To Dos, scheduled reminders, and the ability to share and comment on Not To Dos with friends, the NotTodo app provides a comprehensive solution for staying focused on what truly matters.

Main Features

User Management

01

- User Registration: New users can easily sign up.
- Login System: Secure login to access the app.
- Password Reset: Forgot your password? No problem!

Not To Do Management

02

- Add/Update/Remove: Manage your list of NotTODOS effortlessly.
- Contextual Display: See your NotTODOS by context like "At Home" or "At Work".

Scheduled "Not To Dos"

03

- Timely Reminders: Get notified 10 minutes before your scheduled NotTODO.
- Repeating Tasks: Set reminders to repeat daily, weekly, or monthly.
- Email Notifications: Get email reminders to keep you on track.

Sharing "Not To Dos"

04

- Share with Friends: Let others know what you're avoiding.
- Comments: Friends can comment on your NotTODOS.
- Unshare and Copy: Control your shared items and allow others to create their versions.
